Concentrations: Software Engineering, Human-Computer Interaction • Minor: Architecture

TECHNICAL PROJECTS

Developer • JPaint • July - September 2019

- 10 week class project to develop a paint clone in Java using the Swing UI Toolkit
- Utilized a model-view-controller architecture for a more easily maintainable design
- Implemented features including customizable tools such as a paintbrush, an eraser, line and shape drawing tools, a paint-bucket tool, and a color-picker
- Created an advertisement for the program using only the program itself

Front-end Developer • Checkers Online • June - September 2018

- 10 week class project to develop an online checkers game using a client/server model
- Developed client application using HTML/Javascript with a canvas-based UI
- Coordinated with group members to design GET/POST requests for communicating game state information with the server application
- Assisted in writing documentation for project requirements, design, and testing

EXPERIENCE

Intern Architect • Kris Kolo, LLC • Philadelphia, PA • June 2015 - October 2016

- Worked on renovation projects primarily for educational clients, including The University of Pennsylvania and The University of the Sciences
- Conducted site surveys to take photos and get dimensions of rooms, locations of fixtures
- Assisted in preparation of schematic design and construction documents using AutoCAD
- Gained insight into various stages of the design and construction process
